Products sell by this seller never fail to impress me. Actual product received always look alike to what has shown in the picture. Quality is good as what has promised by the seller. Price is reasonable, even lower than other sellers. Product is functioning well and literally worth the price. Worth a buy.

The smell is ok for me. Put a few pads here and there under the bedsheets last night and at least when woke up this morning, my back don't feel itchy like I always do. Thanks seller.
