Glycerin

PEG-150 Distearate &
Cocamidopropyl Betaine

Ethyl
Butylacetylaminopropionate

Natural ingredients to effectively kill pests while keeping your pet's skin calm, clean, and moisturized.

GREEN WORLD VS. OTHER BRANDS

KILLING LICE VS. JUST MASKING WITH FRAGRANCE?

| Comparison | Green World Anti-Lice Pet Shampoo | Other Brands |
|--------------------------|--|---|
| Lice Removal | Ethyl Butylacetylaminopropionate, directly kills lice, fleas, and mites with 99.9% effectiveness | Uses only fragrance or essential oils, temporarily repelling pests but not killing them |
| Prevention | Creates a long-lasting protective barrier, preventing reinfestation | Once the fragrance fades, pests can return |
| Antibacterial & Soothing | Lemongrass Oil (Cymbopogon Schoenanthus Oil), antibacterial, anti-inflammatory, and itch relief | No antibacterial properties, may allow skin issues to persist |
| Gentle Cleansing | Plant-based surfactants, deep cleanse without irritating the skin | Harsh chemical cleansers, may cause dryness and irritation |
| Moisturizing & Skin Care | Glycerin, deeply hydrates, preventing dryness and flaky skin | No moisturizing ingredients, may lead to long-term skin dryness |
| Safety | Mild and gentle formula, suitable for regular use | May contain harsh chemicals that could be harmful with prolonged use |

Green World: Truly kills lice, instead of just masking the problem with fragrance!
Effective + Gentle + Long-Lasting Protection = The Best Care for Your Pets!

500ml

200ml

ANTI DUST MITE PAD

STEPS TO USE:

1. Wet coat completely with water.
2. Apply shampoo from neck to tail (avoid head/face).
3. Massage into a rich lather.
4. Rinse thoroughly with clean water.
5. Towel dry and keep pet warm.
