This is a highly recommended seller. I can say the packing of this seller is tip top, bubble wrapped big box outside, inside each item still double bubble wrapped.

The product is excellent, amazingly work well. I didnt mixed with water, spray directly at night near kitchen area where ant bugging me for months, the next morning all ant body and eggs came out, settled. No more ant ever seen for one week already.

The best repellent insect spray I ever bought by far. My biggest insects are flies. I sprayed on the counter of the kitchen table, and within seconds a fly landed on it, gave a gasp of breath, and died!
